

The icleen®Traveler

With a height of only 19cm and weighing only 2 kg, the icleen Traveler is one of the smallest air purifiers in the world to offer genuine HEPA (high-efficiency particulate air) filtration technology. Despite its compact design, this miniature device has extraordinary air cleaning power. A filter efficiency of 99.97% for particles (at 0.3 micron and larger) makes the icleen Traveler an effective weapon against pollen, spores, bacteria, animal allergens and tobacco smoke. An activated carbon filter helps to combat gaseous contaminants and odours. With an air delivery rate of up to 60 m³/h, the unit is powerful enough to clean the air inside an average car over 25 times and hour.

Thanks to car and mains adaptors, the icleen Traveler can be used in any vehicle with a 12v cigarette lighter socket and any room with a wall socket. Wherever you are, with the icleen Traveler you can take you clean air with you.

Three-stage Filtration

Stage 1; Washable pre-filter

Filters coarse dust, including pollen, spores and fibres.

Stage 2: HEPA filter

This high-efficiency articulate air (HEPA) filter removes bacteria, viruses, spores, animal allergens and cigarette smoke with an efficiency of 99.97%.

Stage 3: Activated carbon filter

Reduces gaseous pollutants and odours that contaminate the vehicle interior through exhaust fumes, cigarette smoke and outgasing of interior materials.

Indoor Use

With the optional 230v mains adaptor, the icleen Traveler can be plugged into any standard power socket.

In-Car use

With the car adaptor, the Icleen Traveler can be run on virtually any automotive 12v cigarette lighter socket. A special seat belt clip secures your traveler inside the vehicle.

Technical Data

Dimensions

22cm in diameter, 19 cm high

Weight

2kg

Air Volume

Speed 1:30 m³/h, speed 2:60 m³/h

Power Consumption

4.5watts

HEPA filter surface

1.6m²

Housing Material

steel with solvent free powder coating

Colour

Dark Grey

Air Intake(upper part)

Through three-stage filter structure

Air outlet(lower part)

Through 330 air outlet

Fan

- developed for sustained operation
- service life of over 35000 hours
- German high quality fan

Filter service life (depending on use)

Pre-filter (washable):1-2years

Activated carbon filter:6-12months

HEPA filter:1-3 years

Accessories (supplied)

- 12v cigarette lighter adaptor
- 1 spare pre-filter
- seat belt clip
- activated carbon media(fitted)

Accessories (optional)

- 220-240 or 100-115v mains adaptor
- aroma pack
- granular activated carbon cartridge

Warranty

1 year

AROMA ESSENCE CONTAINER (AROMA PACK OPTIONAL)

INTEGRATED SEAL (TOP AND BOTTOM)

WASHABLE PRE-FILTER

PROTECTIVE GRILL FOR HEPA FILTER

- ### HEPA FILTER
- 99.97% EFFICIENCY AT 0.3 MICRON
 - 1.6 M² FILTER SURFACE AREA
 - LASTS UP TO 3 YEARS

ACTIVATED CARBON FILTER

- ### POWERFUL, EFFICIENT FAN
- USES ONLY 4.5 WATTS
 - LOW NOISE

TWO FAN SPEED SETTINGS

CLEAN AIR OUTLET
